

What are the benefits of the HPI7s over the HPI6s?

- **Full Range Sound System for a more refined and better balanced sound:** 60W x 2, 2 tweeters, 2 bass speakers enclosed in sound box (vs. 30W x 2, 2 full range speakers)
- **Improved Key Texture:** Natural ivory feel for white keys and natural ebony feel for black keys, 2-piece structure absorbs finger moisture providing stability and comfort.
- **Larger Built-in Screen:** Twice as wide...640 x 240 (vs. 320 x 240)
- **LCD & TV Monitor Output:** Connect any LCD monitor or TV to the HPI7s and set it to the left or right of the music rest to see an even bigger display of Digi-Score or Lyrics. LCD "panel mode" allows you to still easily operate the piano when your piano book is placed in front of the built-in screen. "Slide Show" displays your pictures behind the Karaoke lyrics. An LCD also simplifies 16-Track Song Editing with dual monitor operation. (TV or monitor not included)
- **2 Position Key Cover:** First position hides control panel, second covers keys too.
- **Slightly Larger Cabinet** for more traditional piano look
- **Microphone Input:** Take full advantage of singing and playing at the piano or have Karaoke nights in your home
- **151 Additional Sounds with several enhanced/improved Sounds:** 612 Sounds (vs. 461)
- **More Levels of Touch Sensitivity Adjustment:** 100 (vs. 5)
- **Equalizer:** 4 band digital equalizer
