## Listening to a Song

1. Turn VOLUME knob to desired volume
2. Insert memory stick and press 
3. Select desired Song Folder using + or - and then press  to open the folder
4. Select desired Song using + or - and then press 
5. To hear that song again, press , then 
6. To listen to all songs in a folder without stopping, press  while holding 
7. To exit a Song Folder press - until (Up) appears and then press 

## Changing Tempo (speed)

1. Press  =
2. Press the + or - button
3. To hear the tempo, press 
4. To stop the metronome, press  again
5. To return to the original tempo, press - and + at the same time

## Turning Tracks On and Off (controlling what you hear)

1. Touch a track button to turn it either on (lit) or off (not lit)
2. Track R is rhythm, Track 2 is accompaniment, Track 3 is left hand and Track 4 is right hand
3. Track 1 is usually off because it is generally used for student recording

## Going to a Particular Measure

1. Press  or  to get to the desired measure
2. For songs that have 1 or 2 "count-in" measures, add that number to each measure of the printed music to find the measure number on the disk

## Setting Practice Loops

Your goal is to play the song all the way through without pauses. A practice loop will help you learn your song section by section.

1. Press 

2. Use  or  to select the measure for the marker
3. Pressing - sets Marker A
4. Select the next measure and then press + to place Marker B
5. Turn on  and 
6. Press  to begin
7. Gradually increase your tempo as you become more comfortable
8. To clear the markers you set, while holding  press - to delete MARKER A and press + to delete MARKER B

## Setting a Count-In

Most songs have one or two measures of "count-in" at the beginning to establish the beat

1. If you want a 2-measure count-in when starting somewhere other than the beginning of the song, press , then press 
2. To turn off , press again

## Transposing

1. While holding , press R
2. Use - or + to adjust by half steps

## Tuning to an off-pitch acoustic piano

1. While holding , press 1
2. Press 
3. While you are hearing the "A" frequency being generated from the MT90S, repeatedly play A above middle C on your piano and use - or + to adjust the frequency to your piano. (440.0 is the normal pitch)

## Other

1. While holding , try pressing any other button. Lots of hidden functions. Have fun!

	RESET		TEMPO
