

Rent-To-Purchase options: essential, effective tools for piano lessons

To help families as they begin piano lessons, minimize initial investment and build confidence that a piano purchase is sound, Roland Corporation offers an innovative Rent-to-Purchase plan. You can rent a **Roland Piano** for about the same cost as a cheap keyboard. With only a four month minimum commitment you **receive 100%** credit toward the purchase. After the first four months you may continue renting on a month-to-month basis and receive 50% of each additional payment month toward the purchase. Students that are enrolled with an Austin area piano teacher may receive a discounted rate (listed in parenthesis) for the first four months.
